## Summary of Collection Services for Recyclables and Organic Materials

### RECYCLABLES

Separate collection of recyclable materials is available using any of the following container sizes: 96-gallon carts, or 1, 2, 3, 4, 6, or 7 cubic-yard bins. We will work with you to select a container size and collection frequency that best suits your needs.

This service is available at no additional charge to all businesses in the City of Hayward.

### ORGANIC MATERIALS

Separate collection of organic materials is also available to all businesses in the City of Hayward. Listed at right are the monthly rates effective June 1, 2008, by container type and service frequency.

Rates are 50% of monthly garbage rates for the same level of service, e.g., the rate for a 2 cubic-yard bin of organics collected once per week will be half the rate for a 2 cubic-yard bin of garbage collected once per week.

### ASSISTANCE AVAILABLE

To encourage participation in the program, indoor storage containers for recyclables and organic materials are available at no additional charge. Literature describing proper preparation of materials is also available for distribution to employees.

Also, two or more businesses may share use of a cart or bin for recyclable or organic materials.

### ORGANIC MATERIAL COLLECTION RATES

CONTAINER TYPE	1x/WEEK	2x/WEEK
32-gallon cart	\$9.89	\$19.78
64-gallon cart	\$19.80	\$39.59
96-gallon cart	\$29.61	\$59.21
1 cubic-yard bin	\$52.01	\$104.02
2 cubic-yard bin	\$93.94	\$187.88
3 cubic-yard bin	\$134.00	\$268.00

*Collection services more than twice weekly can be scheduled.*
